Experience

Associate Software Engineer, CDDA – Aftabnagar, Dhaka — Dec 2025 – Now

- Collaborated in **Property Source**, a multitenant saas app, with industry professionals and learned about real-world applications of **Git**, **micro-service architecture**, and **SDLC**, **MVC design patterns** and modern development workflows.
- Contributed in **Vision CRM**, a NextJS app, by building REST APIs, pages, automation in Cloudflare trigger and scheduler in Cloudflare Durable Object. And became familiar with professional corporate culture and communication practices.

Junior Web Developer, Brain Machine AI – Hybrid — Sep 2024 – Jan 2025

- Developed simple dynamic websites under the EDGE course arranged by ICT Division Bangladesh and CUET CSE Department using **Bootstrap** and **Django** with collaborative workflows.

Projects

Notice Board — Live Demo | GitHub

- Built a recruitment notice aggregator for Govt. Jobs and Bangladesh Bank/BSCS with search, filtering, sorting, and deadline indicators.
- Implemented data validation, saved snapshots that preserve previous data after failed refreshes, and automated tests using TypeScript, Astro, Cheerio, and Vitest.

My Companion — GitHub

- Developed a personal Android app with contact shortcuts, recurring reminders that survive device restarts, and background audio playback with queues and playlists.
- Used Kotlin, Jetpack Compose, Room, Hilt, and Media3 with layered architecture, automated tests, and CI checks for code style, tests, lint, and APK builds.

Black Board — GitHub

- Built a real-time collaborative drawing application that synchronizes drawing and canvas-clear events across connected clients using WebSockets.
- Implemented mouse and touch drawing, brush controls, and client reconnection using Go, Gorilla WebSocket, JavaScript, HTML5 Canvas, and CSS.

Technical Skills

Languages: Typescript, Python, C++, C, Bash, Go, Java, Kotlin

Frameworks & Libraries: React, NextJs, Django, Spring Boot, Bootstrap, Flutter

Tools & Technologies: Git, Github, REST API, SQL, Docker, CI CD, Postman, Linux, Cloudflare, AWS

Software Design: SOLID, MVC, Clean Architecture

Education

Chittagong University of Engineering and Technology (CUET) — Feb 2020 – Aug 2025

B.Sc. in Computer Science and Engineering — CGPA: `3.77/4.0`

Problem Solving Profile

Solved 400+ problems across LeetCode(`akibh`), Codeforces(`akib35`), AtCoder(`akibh`), and uva(`akib35`), HackerRank(`1904015_akib`).
